

About Greenhaven

Pace Homebuilders is proud to present Greenhaven, Atlanta's first Eco-Decorator's Showhouse. Located in Chelsea Landing, the first eco-friendly neighborhood community in East Cobb, Greenhaven will carry the US Green Building Council's LEED for Homes (Leadership in Energy and Environmental Design) certification and showcase the latest in green building techniques, sustainable design, state-of-the-art-technology, and energy efficiency.

Bringing together industry-leading local talent, Pace Homebuilders creates the ultimate Green Team to transform the 7,000 square foot house into a widely recognized green building model for designers, builders, and homeowners. Joining the Green Team will be top Atlanta decorators, local vendors and consultants, and landscape architects, all with the same environmental initiatives as Pace Homebuilders. The team will work closely together to ensure that Greenhaven represents the future of green building and wows visitors as they tour the home upon its completion.

Years of environmental responsible building practices has established Pace Homebuilders as forerunners in Atlanta's green-building movement, allowing them to approach Greenhaven with expert knowledge of the latest green products, energy-efficient technology and resource-saving practices to ensure homeowners receive the healthiest and most efficient home. In addition to LEED certification, Greenhaven will be honored with EnergyStar and EarthCraft certifications and incorporate the Xeriscaping landscaping method to its outdoor environment.

Pace Homebuilders has designed Greenhaven with the homeowner in mind, focusing on quality, comfort and distinctiveness. Its unique three-level floor plan is designed with functionality to meet the lifestyle of today's homeowner and highlights amenities such as a bedroom level laundry room, kitchen-centric entertainment area, drop-spot entry room, state-of-the-art home theatre , and private home office. The indoor comforts are rivaled only by inviting outdoor living areas and walkable streets lined with lush landscaping and good neighbors.
